

## CHROMO TRAP YELLOW

Codice prodotto: 2402001

Category: Absent

Chromotropic traps for monitoring and trapping flying insects

**Formula:**

Adhesive sheet Ready to use

**Description:**

Chromotropic adhesive traps attract and eliminate all unwanted flying insects. They can be used in greenhouses and homes. The yellow colour attracts nuisance insects such as midges, whiteflies, house flies, aphids and thrips. The trap is water repellent and biodegradable. The product will keep for several years in unopened packaging. Store in a cool place.

**Technical information:**

Sheet dimensions: 40 x 25.5 cm

**Method of use:**

Hang the trap near plants – see illustrations on the front of the pack. Replace trap every 6-8 weeks or as required. For monitoring: it is recommended to set at least 1 trap per 50 sq.m. For trapping: At least 1 trap per 10 sq.m recommended.

**User:**

Professional

**Unit of sales:**

bag containing 10 pieces
